SUMMARY

Frontend Software Engineer with 1.8 years of experience building scalable SaaS applications using React, Tailwind, and TypeScript. Skilled in dashboards, API integrations, and role-based access systems, with proven problem-solving ability through client projects.

EXPERIENCE

ST GLOBAL TECH | FRONTEND DEVELOPER
December 2023 – Present

- → Engineered the frontend of a **Learning Management System (React, Tailwind)** used by 100+ learners, ensuring responsiveness, accessibility, and improved engagement.
- → Designed and launched the **corporate website** (React, Express, SQL Server), improving performance and reducing page load times by 25%
- → Collaborated with backend engineers to integrate APIs into a **travel booking platform**, reducing **data sync latency by 20%** and enhancing reliability.
- → Developed a **SaaS role-based dashboard** (React, TypeScript, Tailwind, Ant Design), implementing dynamic access control and intuitive UX that increased adoption rates among non-technical users.
- → Automated **invoice generation workflows** (React, Express, SQL Server), cutting processing from hours to minutes and improving reconciliation accuracy.
- → Delivered an **Applicant Tracking System** (ATS) that streamlined hiring operations by enabling bulk resume uploads, secure **role-based permissions**, compliance through **continent-level restrictions**, and real-time **analytics** dashboards.
- → **Interfaced with clients** directly to gather requirements, align deliverables with business goals, and ensure high client satisfaction.
- → Produced detailed wireframes and **Business Requirement Documents (BRD)**, streamlining development cycles and improving communication with stakeholders.

FREELANCE FRONTEND DEVELOPER
2023 – 2024

- → **Mavlead** (mavlead.com): Translated **Figma designs into a production-ready website** using React, Tailwind, TypeScript, and Express. Delivered a **responsive**, high-performance site, while collaborating with clients through regular meetings to align on requirements and feedback.
- → **Realigno** (realigno.com): Contributed to the development of a **multi-tenant SaaS dashboard**, implementing **Figma-to-UI components** with React and Tailwind. Ensured scalability and role-based workflows to support multiple client organizations.

ACHIEVEMENTS

- → Delivered a major project **ahead of schedule**, recognized for collaboration, technical ownership, and problem-solving.
- → Runner-up in Zonal round of IITB Techfest (2019-20).
- → 2nd runner-up in College Hackathon and 1st Runner-up in SIH Internal Hackathon.
- → 2nd runner-up in the Innovative Idea Competition.
- → Winner of Innovative Idea Presentation in the presence of Honourable Chief Minister (2019).

TECHNICAL SKILLS

PROGRAMMING

Proficient:
JavaScript • React JS • TypeScript • HTML • CSS

Experienced:
Express.js • SQL Server • Git • Redux Toolkit

Familiar:
MongoDB • Firebase

FRAMEWORKS/LIBRARIES

Tailwind CSS • Ant Design • Shadcn • Redux Toolkit

SPECIALIZATIONS

Role-Based Access Control • Performance Optimization • API Integrations

EDUCATION

COLLEGE OF ENGINEERING ROORKEE
B. TECH IN INFORMATION TECHNOLOGY
2018-2022 | Roorkee
Percentage: 77%
